

Thank you, Business Partners

Every year, area business partners provide speakers, internships, job shadows, and other work-based learning experiences for Technology Center students. In addition to building strong student résumés and portfolios, these networking experiences also help students see the range of career paths possible in a given field.

Help shape and support our future workforce!

If you or a company you work for could provide some type of work-based learning experience, contact **Sheryl Palicki, 630-691-7600** or email sherylp@tcdupage.org.
