

It's never easy for people to see their cars damaged in an accident, faded by harsh sunlight, or rusted by the elements. As a skilled auto body technician, you can bring a car "back to the future."

Become the best friend to a damaged or road-worn vehicle.

Estimated program cost:

\$165 - \$175 first year

\$160 - \$170 second year

college credit
available

Labor Market Information

Occupational statistics from DuPage and collar counties predict **moderate job growth** between now and the year 2016.

Auto Body Repair & Refinishing

You love cars, you know what makes them look good, and you love detail work. The Auto Body Repair and Refinishing program can show you how to turn that interest into a lucrative, rewarding career. Completing this program prepares you for a post-secondary program to earn Automotive Service Excellence (ASE) certification.

What will my classes be like?

Our ASE-certified instructors will walk you through every facet of auto body repair. You will learn sheet metal and welding techniques, body alignment, finishing and painting, cost/time estimating, plastic, fiberglass and measuring systems, and shop management. Work with industry-standard equipment and learn how to turn what you learn today into a successful career.
