Back to School/Continuing Education Night
Thursday, September 20, 2018
6:30 p.m to 8:30 p.m

** IMPORTANTE: 6:00 p.m. (18:00) Información en español sobre TCD **

This event allows students, families and host schools to visit our facility, talk to the staff and learn more about our dual credit programs with partnered postsecondary schools such as College of DuPage, Joliet Junior College and Kishwaukee College.

Why is Technology Center of DuPage so unique?
Since 1974, Technology Center of DuPage (TCD) has given over 25,000 DuPage high school students a head start on college and career pathways. Through TCD’s accelerated programs, juniors and seniors can:

★ Explore a career interest in a project-based learning environment.
★ Earn both high school and free college credit at the same time.
★ Discover career paths and their postsecondary education requirements.
★ Obtain industry certifications and network with professionals in the field.
★ Develop skills critical for success in college and today’s competitive workplace.

TCD is an Elective Part of Your High School!
Usually replacing study hall or an elective course, TCD programs are two-hour sessions, five days a week, with transportation provided to and from Technology Center of DuPage.

How Much Does it Cost?
As an elective part of high school, TCD does not charge tuition, and bus transportation is provided. There is a modest flat fee for books and supplies; see www.tcdupage.org for more information.

20 CAREER STUDY PROGRAMS

- Auto Body Repair & Refinishing
- Automotive Technology
- Computer Information Systems & Game Design
- Computer Science Principles
- Construction Trades
- Cosmetology
- Criminal Justice
- Early Childhood Education & Care
- Electronics Technology
